Overview

Skadarska Krajina is a historical and geographical area in Montenegro stretching **between the Rumija Mountain, Tarabos hill, Bojana River and Skadar Lake.**

Krajina was first mentioned in the **Chronicle of the Priest of Duklja** (from the 12th century) as **Craini**, the place where the **castle of Vladimir, the Prince of Duklja**, was located, as well as the **monastery of the Virgin Mary of Krajina.**

This area located between Skadar Lake and Mountain Rumija is **rich in picturesque monasteries and churches, desert islands and authentic villages.** Numerous cultural and historical monuments, archeological sites, medieval monastery complexes and fortifications testify that this area has been a significant **cultural center since ancient times.**

As the legend has it, **Ada Bojana** appeared in 1858, **at the mouth of Bojana River in the Adriatic Sea**, on a place where the ship called Merito wrecked into the sea. Along with two nearby islands the shipwrecks were then retaining river sediment for years and created the beautiful island of Ada. It began to appear in 1882. **Ada is the most famous pearl of Montenegro tourist offer.**

Tour details:

Departure from Podgorica is early in the morning. We take the main road through Golubovci to Virpazar. From Virpazar, we continue **along Skadar Lake**, through the villages of Godinje and Seoca above Krnjice. A great view over Murici and the **famous islands, where the medieval monasteries Starčevo Gorica and Beska are located**, spreads from this part of the road.

The road across Krajina, between Virpazar and Ostros, is narrow, curvy and mostly steep, but **offers spectacular views.**

Following the steep and narrow road uphill, we pass through **centuries-old chestnut forests and reach the Ancient Wells in Ostros** (Boljevici Village) which is a true tourist and mountaineering attraction. There are twelve wells on a small plain surrounded by centuries-old chestnut trees, at the edge of the village, below a mild forest slope. It is uncertain when they were built and who built them, but as legend goes they are connected to the **famous Ostros Royal Wells built by Prince Vladimir in 1001.**

Then we continue our tour with 4WD vehicles from Ostros to Vladimir and we descend to Vladimir across Tarabos Pass. **The view on Tarabos from the view point Stegvas, above Ostros, is remarkable.** Here you can enjoy the view over Skadar Lake from Vranjina to Shkodra, Prokletije Mountains, Tarabos, Sukobin, Bojana River, Sasko Lake, Vladimir, Solana, even part of Shkodra. After visiting Vladimir **we descend to Ulcinj from where we continue to Velika plaza and along the hinterland of Velika plaza to Ada Bojana.**

Ada Bojana is said to be a place that pushes negative thoughts away. Since there is unusual silence in this area, only after a few hours of stay it will become clear to you that this silence can transform and calm people, lift their spirits, will, vitality and **give them strength for new victories.** Ada has mild Mediterranean climate with over **217 sunny days per year** and the bathing season lasting from May to October. We enjoy **sunbathing and swimming at Ada Bojana** until the late afternoon (during the summer months). At the end of the tour, **we return to Podgorica** by the main road leading along the Montenegrin coast.

INCLUDED

- Pick up & drop off in Podgorica
- English-speaking licensed tour guide
- Jeep 4×4 vehicle with a driver
- Packed lunches during tour (an unforgettable picnic)
