Overview

Canyoning represents an unforgettable experience for all those who had the opportunity to try it. It is a thrilling experience that's guaranteed to challenge you, and at the same time, **you'll be exploring some of Montenegro's most impressive scenery**. Montenegro's great fortune is in various canyons which can **give you complete pleasure and leave you breathless in the end**.

Even though canyoning does not require any special physical capability, it is truly **an adrenaline adventure** and not for the faint-hearted. You must be **in good physical shape and able to swim** to take part in this **wet and wild adventure**.

The best and most fascinating thing about canyoning is that **you follow the watercourse** as a trail that guides you. **If you are curious, love the magic of water and untouched nature you will enjoy** in a new world which is usually unreachable to regular people. We are offering you the opportunity to get to know the world of **wild Montenegrin canyons** with the **professional guidance of licensed guides**.

Skurda Canyon is located in the **southern part of Montenegro, above the UNESCO's World Heritage Site of Kotor**, on the very shore of the Boka Bay, one of the **most beautiful bays on the Adriatic coast**. This canyon is a piece of evidence that nature is an unsurpassed sculptor, where water in limestone carved the most beautiful forms. **If you visit this canyon which is full of vertical rock walls from 5 to 30 m, you can expect tons of adrenaline**. The length of the canyon is approximately 2000 m. In some places you will hang on the rope and look at the old town walls and many cruisers circling the bay. If you choose to go there **in the spring months you will enjoy the waterfalls** and experience falling through them.
